5th Annual Australian Bicycle Summit

This is the sole occasion of the year where leaders from every major Australian cycling organisation come together, along with bicycle industry members, local, state and federal politicians and other key government decision makers. They are brought together by We Ride Australia, the peak national cycling advocacy organisation.

2019 will see the 5th annual Australian Bicycle Summit building upon the success of previous summits, first held in Canberra (2015 & 2016), followed by Brisbane (2017) and Sydney (2018).

The Australian Bicycle Summit, in addition to bringing advocacy organisations together, represents a unique opportunity for government at all levels, corporate leaders and transport and property groups to showcase their investments and planning that make the choice to cycle easier. Together with bicycle industry members, the Australian Bicycle Summit is designed to provide a high-level networking and knowledge sharing forum for key players.

Cycling Luminaries Awards

Each year's summit is highlighted with a gala dinner at which the annual Cycling Luminaries Awards are presented. These awards have been held since 2002.

Winners and short-listed nominees are announced in three categories: Bike Culture and Behaviour Change, Leadership and Built Environment. In some years.

Nominations from across Australia are assessed by an expert, independent panel of judges with the winner's names only announced and presented during the dinner.

In certain years the independent panel has chosen to announce a Special Award to a deserving candidate.

You can see more about the Cycling Luminaries Awards, including details of past winners at <https://www.weride.org.au/what-we-do/2018-cycling-luminaries-awards/previous-winners/>.
